

Caller Questions from March 11, 2021

- 1. Chris from his Car: Asked that we check the rogue 55 MPH speed limit sign on I-195 East at Warren Avenue (Exit 1D) in East Providence since he thought the speed limit on I-195 was 50 MPH**

We checked our State Traffic Commission records, and yes, Chris is right. The speed limit through this area is 50 MPH, so we will remove the inaccurate sign he asked about by the beginning of next week.

- 2. June from North Providence: Reported overhead lighting is out along Route 146 North from I-95 in Providence to Mineral Spring Avenue in North Providence, and from Mineral Spring Avenue to Route 116 in Lincoln**

Our Maintenance electricians just last week repaired faulty circuits on Route 146 at Breakneck Hill Road, Route 246, Twin River Road and Route 116. We plan to make additional repairs on Route 146 at Admiral Street today and will continue to keep an eye on this corridor in the future. Please keep in mind, although June mentioned Route 146 North, our repairs cover our overhead lighting systems on both sides of the highway.
